## THE STRUGGLE NOW ON

**Spain Did Not Wait For President's Ultimatum.**

**ORDERED WOODFORD TO GO.**

**Thus Responsibility For Breach Rests With the Dons.**

**BLOCKADE OF HAVANA ORDERED.**

**In Case the Spanish Fleet Comes Over, Which Is Considered Improbable, an Attempt Will Be Made to Force It Into a Battle.**

Washington, April 22.—Minister Woodford, at Madrid, was handed his passports before he had a chance to deliver the president's ultimatum, Spain thus accepting the responsibility of severing diplomatic relations and virtually declaring war.

A cabinet meeting was called immediately, and it was decided to order the North Atlantic squadron to blockade Havana at once.

In case the Spanish fleet comes over, which is considered very doubtful, an attempt will be made to force it into battle, and thus practically end the conflict in short order.

### INTENSE EXCITEMENT.

**Caused by News That Spain Had Practically Declared War.**

Fort Monroe, April 22.—Beginning with the reception of the first news bulletins from Washington intense excitement prevailed here, both on shore and among the officers and men of the squadron.

The officers who came ashore in the afternoon were notified that they must report on board at 10 o'clock at the latest, and that no all-night shore leave would be granted.

The officers of the Massachusetts were told that they must report at 5:30 o'clock on board, when leave might be granted for a few hours to see friends.

These two orders led to all sorts of rumors, an annoying one being that the Massachusetts had been detached, which was promptly denied.

At the hotels, where many of the officers' wives are staying, there was great consternation, it being believed that the squadron would sail before morning.

At 4 o'clock, after the receipt of a bulletin that the Spanish believed the ultimatum to be a declaration of war, Commodore Schley signaled from the Brooklyn for all the engines to be coupled.

Arrangements were made for the telegraph stations on shore to remain open all night to receive dispatches.

Despite the strain on all nerves men and officers are enthusiastic to a degree, and that was demonstrated when the torpedo boat Rodgers stopped by the Brooklyn on her way out to join the Key West squadron to ask permission of Commodore Schley to proceed. The men flocked to the forecabin of the vessels and cheered heartily. She went out of Hampton roads at full speed.

### CHANCE TO FIGHT.

**Arrangements Completed For Calling Out the Militia of the Country.**

Washington, April 22.—Arrangements have been completed for calling out 100,000 of the militia of the country to aid the regular army in the operations to compel the Spanish evacuation of Cuba.

The number of men required from each state will be in the proportion that its population bears to that of the whole country.

According to this ratio the several states would be called on to furnish men as follows: Alabama, 2,000; Arkansas, 1,620; California, 2,590; Colorado, 1,059; Connecticut, 1,286; Delaware, 273; Florida, 600; Georgia, 2,539; Idaho, 186; Illinois, 6,439; Indiana, 3,442; Iowa, 3,018; Kansas, 2,230; Kentucky, 2,726; Louisiana, 1,552; Maine, 1,005; Maryland, 1,554; Massachusetts, 3,777; Michigan, 3,495; Minnesota, 2,299; Mississippi, 1,726; Missouri, 4,329; Montana, 419; Nebraska, 1,927; Nevada, 110; New Hampshire, 602; New Jersey, 2,370; New York, 10,011; North Carolina, 2,067; North Dakota, 369; Ohio, 5,799; Oregon, 663; Pennsylvania, 8,615; Rhode Island, 568; South Dakota, 1,480; South Carolina, 598; Tennessee, 2,448; Texas, 3,383; Utah, 340; Vermont, 507; Virginia, 2,230; Washington, 942; West Virginia, 1,111; Wisconsin, 2,619; Wyoming, 185; Arizona, 145; District of Columbia, 359; New Mexico, 272; Oklahoma, 114.

### THE ULTIMATUM.

**State Department Gives Out Last Communication With Spain.**

Washington, April 22.—The following statement of the text of the ultimatum to Spain was issued:

On April 20, 1898, about 11 o'clock a. m., the department of state served notice of the purposes of this government by delivering to Minister Woodford, and also a copy of the resolutions passed by the congress of the United States on the 19th inst.

After the receipt of this notice the Spanish minister forwarded to the state department a request for his passports, which were furnished to him in the afternoon.

The United States minister at Madrid was at the same time instructed to make a like communication to the government of Spain.

The department received from General Woodford, a telegram copy of which is herewith attached, showing that the Spanish government had broken off diplomatic relations with this government. This course renders unnecessary any further diplomatic action on the part of the United States.

A copy of the instruction to Woodford is herewith appended:

Woodford, Minister Madrid: You have been furnished with a text of a joint resolution voted by the congress of the United States, on the 19th instant, in relation to the pacification of the island of Cuba.

In obedience to that act the president directs you to immediately communicate to the government of Spain said resolution, with the formal demand of the government of the United States that the government of Spain at once relinquish its authority in the island of Cuba and withdraw its land and naval forces from Cuba and Cuban waters.

In taking this step the United States hereby disclaims any disposition or intention to exercise sovereignty, jurisdiction or control over said island, except for the pacification thereof, and asserts its determination when that is accomplished to leave the government and control of the island to its people under such free and independent government as they may establish.

If by the hour of noon on Saturday next, April 23, there be not communicated to this government by that of Spain full and satisfactory response to this demand and resolution, whereby the ends of peace in Cuba shall be assured, the president will proceed without further notice to use the power and authority enjoined and conferred upon him by the said joint resolution to such extent as may be necessary to carry the same into effect.

SHERMAN, Washington.

Early this, Thursday, morning, immediately after the receipt of your open telegram, and before I had communicated the same to the Spanish government, the Spanish minister for foreign affairs notified me that diplomatic relations are broken between the two countries, and that all official communication between their respective representatives had ceased. I accordingly asked for safe passports, turned legation property over to British embassy and left for Paris. Have notified consuls.

WOODFORD.

**Spain's Last Hope Shattered.**

Washington, April 22.—There are strong indications that if the Spanish government persists in the present announced policy of commissioning privateers to prey on commerce, effective influences will be brought to bear upon her by several other great commercial powers, particularly Great Britain and Germany, to stop this privateering, or to make it practically ineffective and harmless.

**May Overstep Themselves.**

London, April 22.—Trustworthy information is that the continental powers will preserve strict neutrality between the United States and Spain until there has been enough blood shed to appease Spanish honor. Then they will try a concerted plan, already vaguely considered, to get Spain out of its difficulties as lightly as possible.

**Colonel Cook Retired.**

Washington, April 22.—Colonel Henry C. Cook, who commanded the Fifth Infantry at Fort McPherson, has been placed on the retired list on account of disabilities incident to the service. He has been succeeded in command of the Fifth regiment by Lieutenant Colonel H. D. Freeman of that regiment, who has been stationed in Oklahoma.

**Woodford Leaves Spain.**

Madrid, April 22.—General Woodford left for France at 4:40 p. m. A crowd of the rabble followed him to the station, but he was amply protected. He left American interests in the hands of the British embassy. He also ordered all American consuls to leave Spain.

**The Pirates Are Ravaging.**

Madrid, April 22.—There is a bitter feeling here against Great Britain, especially on the contraband-of-war and privateer questions. It is the belief of the general public that Great Britain is playing in an underhand manner the game of the United States.

**Full Protection Ordered.**

Madrid, April 22.—The authorities of the different Spanish provinces through which the train with General Woodford on board passed received instructions to take the necessary steps to protect it until the frontier of France was reached.

**Vigorous Action Taken.**

Key West, April 22.—A policeman arrested and locked up a member of the Twenty-fifth (colored) infantry. Immediately 25 armed soldiers of the regiment surrounded the jail and compelled the sheriff to release the prisoners.

Washington, April 22.—The senate passed the sundry civil bill, the naval appropriation bill, and a joint resolution giving the president power to prevent the exportation of coal or other war material.

## STOP AT CHATTANOOGA

**That Is the Order Given to Troops on the Road.**

**NO EXPLANATION WAS MADE**

**It Is Believed Accommodations South Not Adequate.**

**THIS IS SIMPLY A CONJECTURE.**

**The Opinion Is Expressed That Those Who Have Passed Further South Will Not Be Ordered to Turn Back at This Time.**

Chattanooga, April 22.—Five and perhaps more of the infantry regiments now en route to the encampments at New Orleans, Mobile and Tampa, Fla., will pitch their tents on the Chickamauga battlefield.

Acting on orders received from Washington, Major General Brooke telegraphed to the commanding officers of all the regiments which have not already gone by Chattanooga ordering them to proceed here at once.

Arrangements were also entered into with the different railroads centering here for the prompt movement of the Chattanooga infantrymen who arrived at Junction Points.

The Twelfth infantry from Fort Niobrara, Neb., on its way to New Orleans, was diverted at Nashville, the first white infantry regiment to be encamped on the Chickamauga battlefield.

The Second infantry, from Forts Keogh, Harrison and Yates, Mont., which passed through St. Paul on their way to Mobile, will be diverted at Nashville and come through to Chattanooga without stopping.

The Nineteenth infantry, from Forts Brady and Wayne, the Twentieth from Fort Leavenworth and the Twenty-second from Fort Crook, all bound for Mobile, were also communicated with, and soon a good-sized army will have gone into camp at Chickamauga.

It is not yet certain whether any regiments besides those mentioned will come here, as it is understood it is not the intention to recall the infantry who have already reached their southern rendezvous or have so nearly reached there that turning them back would entail an extra loss of time.

No reasons for this sudden change of plans as regards the placing of the regular troops were vouchsafed at headquarters. It is believed, however, that facilities for the accommodation at the southern camp grounds of such large bodies of troops as it was at first contemplated sending are inadequate at present.

By night nearly 1,500 of the 5,000 cavalry and artillerymen who have been ordered to Chickamauga were encamped on that battlefield. Late in the evening the number already camped there had swelled by the arrival from Fort Sheridan, Ills., of battery A, Second artillery, in command of Lieutenant Colonel Charles W. Viele and troops C and G of the First cavalry, commanded by Captain George W. Bryan, over the Nashville, Chattanooga and St. Louis railroad, and batteries B, D, F and G of the Second artillery from Fort Adams, R. I., which came over the Southern.

Major General Brooke put Major Dillenback in command of the artillery at Chickamauga, while Colonel S. S. Sumner of the famous Sixth cavalry took command of the cavalry forces.

The news of the ordering of the North Atlantic squadron to Havana created a good deal of commotion among the soldiers, who discussed eagerly the prospects of early orders for departure to the sea coast.

Among the officers satisfaction was manifest. It was apparently the general opinion among them, however, that no forward movement of the Chickamauga troops would be given for some time, as the gathering and equipping of the large force of militia necessary for the contemplated Cuban invasion would necessarily consume several days.

**Halted at Chattanooga.**

Washington, April 22.—In accordance with the wishes of General Miles the Sixteenth regiment of infantry, from Fort Sherman, Ida., under command of Colonel H. A. Theaker, has been temporarily halted at Chattanooga. It was also intended that some of the other infantry regiments should be stopped at Chattanooga for a short time, but they had proceeded beyond that point before orders holding them could be issued.

**No Troop Returned.** Wichita, Kan., April 22.—The First

cavalry, en route from Fort Sill, O. T., to Chickamauga park, passed through here. Lieutenant Osborne pronounced as untrue the Rush Springs report that a troop had been returned to suppress an Indian uprising.

**Their Ardor Will Be Cooled.**

Madrid, April 22.—Crowds paraded the streets. The mob gathered in front of the Equitable Life Insurance building and smashed the American eagle to bits. They carried fragments through the streets, yelling, "Down with the Yankees."

**Will Round the Horn.**

Washington, April 22.—The battleship Oregon, on her way from the Pacific station to join the North Atlantic squadron, has been ordered not to pass through the strait of Magellan, but to "round the Horn," as it was feared she might be caught in the strait by the Spanish fleet. If she has free action she has nothing to fear from the entire Spanish squadron.

**Waiting With Fires Banked.**

St. Vincent, Cape Verde Island, April 22.—The Spanish ironclads are coaling from the transport San Francisco. The whole squadron is awaiting orders with fires banked.

**They'll Not Land at Havana.**

Madrid, April 22.—War Minister Correa has been authorized to call out 80,000 reserves. Three vessels loaded with troops left Cadiz, destination unknown.

**Probably Means a Massacre.**

Havana, April 22.—Orders of a secret nature have been formulated and will be made public in the event of an attack being made upon Havana.

**Purchased the Nemensha.**

Washington, April 22.—The navy department purchased the Nemensha, now at Norfolk, for the use of the bureau of steam engineering.

**Coming Over With Coal.**

Rio de Janeiro, Brazil, April 22.—Warship Nictheroy, bought by United States, leaves immediately with 3,000 tons of coal.

**Three Cruisers Purchased.**

Berlin, April 22.—The United States has bought three Chinese cruisers that are building at the Vulcan yards.

**New Postmaster General.**

Washington, April 22.—Owing to ill health Postmaster General James A. Gary sent his resignation to President McKinley, who reluctantly accepted it. It was agreed when Mr. Gary was appointed that he should be relieved at any time he should desire.

Charles Emory Smith, editor of the Philadelphia Press, was appointed to fill the vacancy, and the nomination was promptly confirmed by the senate.

Mr. Smith was minister to Russia under Harrison's administration.

When President McKinley was making up his cabinet the name of Mr. Smith was frequently mentioned for a position, but

when the ministry was completed it was found that he had not been given a portfolio.

**Wanted For Murder.**

Youngstown, O., April 22.—Detective McMillan passed through here for Cleveland in charge of John Basena, arrested in Cumberland, Md. Basena is wanted in Cleveland for a murder committed eight years ago.

**Trying to Purchase Coal.**

St. Thomas, West Indies, April 22.—Spanish agents at Porto Rico are making attempts to purchase coal here and in the Winward Islands. Up to the present they have been unsuccessful in securing any supplies. There are 7,000 tons of coal afloat consigned to the island of St. Thomas. Mr. Van Horne, the United States consul here, is reported to be negotiating for a part of the coal afloat.

**Tax on Incomes.**

Washington, April 22.—Representative Sayers of Texas, leader of the minority of the house committee on appropriations, introduced a bill imposing and providing for the collection of a tax on incomes.

**To Equip a Regiment.**

Chicago, April 22.—John A. Logan, Jr., has received authority from the war department at Washington to recruit a regiment of 1,200 men and equip them for light cavalry service.

**Madrid, April 22.—In the lobbies of parliament all deputies agreed America "must be resisted to the utmost."**

## A DEADLY LINE FENCE.

**One Man Killed and Another Fatally Wounded.**

**WINCHESTER AND SHOTGUN.**

**No "Devil's Lane" Is Allowed on Kentucky Soil so Long as the Disputants Have Arms and Ammunition.**

Paris, Ky., April 22.—Near Little Rock, this county, Reuben Utterback shot and killed Doc Clinkenbeard in a quarrel over a line fence, but before the killing Clinkenbeard mortally wounded Utterback's 19-year-old son and also shot the senior Utterback in the breast. Utterback used a Winchester and Clinkenbeard a shotgun. The slayer is in jail.

**Pleading For Corporation Clients.**

Frankfort, April 22.—In the fiscal court Judge Cantrill made an order setting aside all the indictments against the Covington and Newport corporations for failure to report to the state board of valuation for argument on the 29th inst. Hon. Richard P. Ernst of Covington, who represented several of the defendant companies, was elocuted with the governor for some time, presumably asking a pardon for them, as the offense is merely technical.

**Spoke Factory Burned.**

Greencastle, Ind., April 21.—Fire destroyed the spoke factory of Alva Brookway. Loss, \$15,000; insurance, \$8,000. The factory had been idle for three or four years. The stock was sold to a Chicago firm, and was awaiting shipment. The warehouse was the only building destroyed, the machinery escaping injury. The origin of the blaze is attributed to a spark from a locomotive.

**How He Escaped.**

Portland, Ind., April 21.—Benjamin Beal, who has been confined in the county jail for shooting two men, has escaped. He was adjudged insane a few days ago, and complained of feeling ill. He was given permission to take a short walk with his wife and children, but jumped into a buggy driven by a stranger and escaped. He was last seen near Eaton.

**A Skeleton In Evidence.**

Frankfort, Ind., April 22.—In the malpractice suit of Thomas Noland against Dr. W. S. Walker, venue here from Tippecanoe county, the plaintiff was awarded \$2,000 damages. The case was sensational in character. A human skeleton and an X-ray photograph of the injured man was offered in evidence. Dr. Walker is one of Lafayette's wealthiest physicians.

**Mischief of a Rusty Nail.**

Laporte, Ind., April 22.—Eldon Vandusen scratched his hand on a rusty barrel hoop. Blood poisoning developed, and he now lies in the agonies of death. A strange feature of his case developed, the patient becoming raving mad, frothing at the mouth, biting his attendants and exhibiting all the well marked symptoms of hydrophobia.

**Aspirations of Bez Hughes.**

Versailles, Ind., April 21.—It is reported that Bez Hughes will run for representative of the Fourth congressional district. Hughes was arrested and stood trial by the state for the killing of Henry Schuter in the Ripley county lynching. Since the trial he is more popular than ever.

**Drowned Himself in a Well.**

Rising Sun, Ind., April 22.—Taylor Crow, an aged and respected citizen of Dearborn county, committed suicide by drowning. His body was found in a cistern. Old age and ill health are responsible for the act.

**May and December Parted.**

Muncie, Ind., April 22.—Dr. Nelson Clouser was granted a divorce from his child wife, Rosa Clouser. He is 87 years old, and she is 16. She filed a cross complaint and asked for \$25,000 alimony.

**More Spanish Ships.**

Madrid, April 22.—Official information has been received that the iron battleship Victoria, now at Cadiz, was finally put in condition for active service on April 13. The iron battleship Numancia, which has been altered at Toulon, is reported to be "nearly ready" for sea. It has also been learned that the merchant steamers Normannia and Columbia, purchased from the Hamburg-American Packet company, have arrived at Cadiz.

**Washington, April 22.—The house adopted resolutions calling for all the correspondence with General Lee, and for information as to the steps taken to protect the 300 Americans left at Matanzas by Consul Brice.**

Captain Bryant Wants An Office, of Course.  
LEXINGTON, Ky., April 21.—There has been a split between Captain James Bryant, of this city, and Colonel E. H. Gaither, of the Second regiment of the State guard, which will cause Bryant to organize a battalion of his own. Bryant had been promised a place as Lieutenant Colonel under Colonel Gaither. It is rumored that Colonel John R. Allen, Commonwealth's Attorney, will also raise a battalion, and that Desha Breckinridge will be Captain of one company.

Mr. Goelet's Swindle of Uncle Sam.  
[Washington Star.]  
Something of that peculiar quality of "patriotism" which was so freely developed during the war period of thirty-five years ago seems to be coming to the front in the present probable emergency. It is stated that the Ogden Goelet yacht "Mayflower," which was recently sold to the government for \$500,000, after all the costly furnishings had been removed, was offered intact to the King of Belgium a few months ago for \$300,000. Can this be true?

Tax on Railroad Tickets.  
WASHINGTON, April 20.—A joint conference between members of the Ways and Means and Senate Finance committees was held to-day at the Treasury to perfect a war revenue bill, which is expected will be introduced to-morrow and passed by Congress on Saturday. It will go into effect immediately and on all unbroken or original packages the tax on beer and tobacco in all shapes is double. It is proposed to introduce an amendment putting a tax of 1 cent, on all railroad tickets over 100 miles. This, it is said, will raise \$20,000,000 and can be made in place of tax on tea and coffee. It is not now in the bill, but will be offered as an amendment in the House.

### A Clever Trick.

It certainly looks like it, but there is really no trick about it. Anybody can try it who has lame back and weak kidneys, malaria or nervous troubles. We mean he can cure himself right away by taking Electric Bitters. This medicine tones up the whole system, acts as a stimulant to liver and kidneys, is a blood purifier and nerve tonic. It cures constipation, headache, fainting spells, sleeplessness and melancholy. It is purely vegetable, a mild laxative, and restores the system to its natural vigor. Try Electric Bitters and be convinced that they are a miracle worker. Every bottle guaranteed. Only 50c. a bottle at J. Jas. Wood's drug store.

### LOUISVILLE RACES.

Greatest Spring Meeting Ever Held in Kentucky. Beginning May 4th.

Beginning on Derby day, May 4th, one of the greatest race meetings ever held in Kentucky will be given at the famous Louisville race course. Eleven stakes, including the Kentucky derby, worth \$3,000, will be run during the fifteen days. All the crack horses in the country are engaged in these stakes, including Ornament, Plaudit, Bannockburn, Simon W., Buck Masse, Bangle, Whitefrost, Alleviate, Flora Louise, Algol, Byron McClelland, Lieber Karl, Macy, Salvable, Flying Dutchman, Presbyterian, Taluca, Gallivant, Fleischmann, Carnero, Meadowthorpe, Dr. Black, Boanerges, Ramiro, Performance, Rosinante, Ben Holladay and many others. Nearly 1,000 horses are now quartered at Churchill Downs, insuring large fields and exciting contests. There will be five or more races each day, with liberal added money.

All the railroads have put on cheap excursion rates, the round trip from Maysville being only one fare. This also includes admission to the grand stand, each railroad ticket having a coupon attached which can be exchanged for a badge at the gate. This is the cheapest rate ever offered from this point.

The Derby will be run on the opening day, Wednesday, May 4th, and will be followed by the Debutante stakes, Louisville handicap, Bluegrass stakes, Clark stakes, Mademoiselle stakes, Fehr stakes, Wenonah stakes, Premier stakes, Kentucky oaks and Juvenile stakes, in the order named. These are the biggest turf events run in the West. On Saturday, May 14th, the gentlemen's cup race will be run.

### Has Fought Five Wars.

[Albany Advocate.]  
It is interesting to observe that the United States has fought five wars in the 122 years since the declaration announced the birth of our nation. In each one we have triumphed. In that period England has fought six wars, not including conflicts with savages in India and Africa and she has lost two—both to United States. France has engaged in six, and has lost two, one with the allied powers and one with Germany. Prussia in the same period has lost two out of five wars. Austria has lost three out of five. Russia has lost two and gained two. Spain has lost every war she has undertaken in that period—unless her ten year war with Cuba may be called victorious.

The United States has declared war but once, that instance being in 1812, and after such a series of insults and injuries as no nation would now dream of inflicting. But there never has been a day when a declaration of war from another nation has found us unprepared. And every enemy which has first attacked us has been the first to sue for peace.

In this country the initiative always rests with Congress, and on its authorization the President must declare war.

An Aged Kentuckian Gives Up His Pension Because He Thought His Country Needed Money.

LEXINGTON, Ky., April 20.—When venerable John J. Creekbaum, of 28 Walton avenue, learned of President McKinley's ultimatum to Spain this morning, he appeared before the local Board of Pension Examiners, and handing Dr. McClure a batch of papers, said: "You will please return these to Washington with my compliments. So long as my country was in peace I was glad to have a pension to help support my family, but now that the Stars and Stripes are again to wave in the breezes of battle I resign my pension to help defend that flag. I am now too old to join the boys in blue again."

Mr. Creekbaum is sixty years of age, and was a member of Company F. of the First Regiment, Ohio Volunteers.

If you would recognize the Organdies of '98 you must first forget their ancestors. They don't "take after" their parents, as it were, for the Organdies of this year are quite as likely to take after their cousins, warp printed Taffetas, as to be recognized for themselves. They are the handsomest specimens of textile weaving and marvels of rich coloring. Two things can not fail to impress you when you see these goods—the delicate beauty of the fabrics and their inexpensiveness, for they were manufactured to sell for 35c., and are excellent values at that price.

Would Be the Nitro-Glycerine Gun a Fayette County Man Will Offer to the Government.

[Lexington Herald.]

MR. R. SAWYER, of Fayette County, the inventor of a very destructive nitro-glycerine gun, will in a few days go to Washington to arrange for the disposal of the gun to the United States.

Several months ago there was an account of this gun in the Herald, and the present war excitement has again aroused interest in it.

Mr. Sawyer invented the gun in 1892 and has spent a considerable sum of money perfecting it since that time. He has had some correspondence with Capt. Sampson, of the U. S. navy, formerly at the head of the Ordnance Bureau, who advised him not to patent it because of the necessary large expense.

For this reason he has never patented the gun and naturally guards the secret of the invention closely. Mr. Sawyer will not let anybody see anything but the effect of the gun when discharged and this speaks sufficient. The gun he now has is about one inch in diameter and shoots effectively a mile and a half. The distance, of course, increases with the diameter. When it strikes an object at some distance, no matter what—steel, rock or wood—there is nothing left to tell the tale. The object is simply blown to atoms.

Mr. Sawyer, while talking to a Herald reporter yesterday evening, said that he wanted to dispose of it to the Government at once and believed it would be of great service.

### Handy With Their Guns.

In a duel near Sharpsburg, Henry Utterback shot and instantly killed Dud Clinkenbeard Wednesday evening. The trouble came up over a roadway. Clinkenbeard fired the first shot, slightly wounded Utterback, and then he fired upon Utterback's son, wounding him. Utterback then fired upon Clinkenbeard, killing him almost instantly. Clinkenbeard was said to be a desperate man. A few years ago he shot and wounded Sheriff C. C. Hazelrigg, who was trying to arrest him. Utterback is in jail at Paris.

#### A Tribute to the Late Mrs. Dr. Wall.

In speaking of the death of Mrs. Elizabeth Wall, wife of Dr. A. H. Wall, the Mt. Sterling Advocate pays her the following touching tribute: "The writer knew Mrs. Wall well and a more lovely character it had never been his pleasure to meet. A halo of sweetness shone about her and the one impression was that of goodness. Mrs. Wall was a Christian, not by name only, but in life, and the same sweet life which she learned from the word of God she imparted to her children. With four score years and one, this beautiful life was ended on earth to be made brighter in the beyond, and those left in sadness on account of the absence of wife and mother can meet her in that home prepared for His own."

## OUR STOCK OF GOLD.

Secretary Gage Submits Data Desired by the Senate.

Washington, April 22.—Secretary Gage sent to the senate a reply to the resolution passed on the 5th inst., requesting information from him as to his manner of ascertaining the amount of gold in the country.

He says that all estimates begin with the calculation made in 1872 by Dr. Linderman, then director of the mint, who placed the stock at \$128,389,864, and that since this time the estimates have been arrived at by adding to the stock of 1872 the annual coinage and the domestic coin imported, deducting the loss on account of recoinage and exportation.

The secretary also furnishes an estimate of the loss by wear and otherwise of paper money, the total stock of which on all issues he places at \$13,145,300.

### Troops Given Ovation.

St. Louis, April 22.—The largest detachment of United States troops to pass through the city since the recent order moving all federal soldiers to the front was issued was that consisting of the First and Second cavalry, which arrived in five trains over the Missouri Pacific from Fort Riley. Colonel Abraham K. Arnold was in command of the First cavalry, in which there were 510 men, including officers. At all points the troops have received ovations. Flowers were distributed in great profusion among the officers and men at almost every stopping point.

## PICKETING THE SKY.

HOW THE MILITARY BALLOON WILL BE USED IN WAR.

With Lookouts In the Clouds the American Commander Will Have a Great Advantage Over the Enemy—The Army Aeronauts and Their Work.

The value of balloons in warfare is no longer a matter of doubt. In actual military operations the army with balloons would have a great advantage over the army without them. The United States army has balloons and men who can manage them. We haven't as many of either as we should have, but the deficiency is one which can easily and quickly be supplied.

The balloons are in charge of the signal corps and this is one of the most important divisions of the army. The commander who knows where all his own forces are, where the enemy is and what the enemy is doing is the man who wins the battle. Napoleon, you know, said, "The secret of war consists in the transmission of messages."

It is this work which the signal corps does, and does best when it has an outpost in the sky to make the messages worth transmitting. By actual practice at one of our army posts it has been shown to be entirely feasible to send men in a captive balloon up under the clouds for the purpose of watching the movements of an enemy.

General Greely, chief signal officer of the army, believes in the balloon, and he recently asked Secretary of War Alger for an appropriation to add a lot of them to the equipment of his corps. He thinks they could be used over the coast with great effect, giving notice of the approach of a hostile fleet long before a warning could be given by swift dispatch boats sent out to reconnoiter at sea.

Military ballooning was first put to a practical test in 1861, when General Fitz John Porter and other officers made frequent ascensions in actual warfare. In these cases, as at the present time, the balloon used was a captive balloon, being held to its moorings on the ground by means of a long rope.

The Confederates had one balloon, it being in the possession of General Longstreet. In order to manufacture it a

THE OUTPOST IN THE SKY.

large number of Confederate women had donated their silk dresses. Early in the war it was captured on the James river by a detachment of northern soldiers, who, it was said at the time, had thereby captured all the silk dresses in the Confederacy.

After 1863 the balloon as a military aid was abandoned by the northern army, and so matters continued for 30 years, until a balloon park was established in the department of the Colorado. The location chosen for the experiments in that line was Fort Logan. That post has the distinction of being the only place in the United States where military ballooning is studied theoretically and practically. Brigadier General Greely, the chief of the signal service of the army, placed Captain Glassford in charge of military ballooning in the whole of the army.

In 1893 General Greely sent Captain Glassford abroad to study balloon manipulations of foreign armies. To that end he spent a year in Paris, living part of the time at Meudon, five miles from Paris, where the French government has a military park.

While there he took lessons in ballooning from Laohambre, who subsequently built Andre's balloon. Captain Glassford had him build a balloon for the signal corps of the United States army, which was forthwith sent home and exhibited in 1893 at the World's Columbian exposition.

The basket, which is of wicker work, is 3 feet long, 2½ feet wide and 3 feet deep. It is hung some distance below the balloon in order that the escaping gas may not fog the photographic plates used by the observer. The capacity of the balloon is 13,000 feet and it can carry two men and an equipment. Connected with the balloon is a field telegraph, whereby an observer may rapidly transmit his messages.

The balloon equipment at Fort Logan consists of a balloon, a balloon wagon with cable drum and cables and accessories for holding the balloon captive; four tube wagons and accessories, one service wagon, a gas generating apparatus, a compressor for impounding gas in tubes, and 180 steel tubes in which gas is compressed to one-one-hundredth or one-one-hundred and twentieth of its volume.
